Supplementary Figure 1. Lymphatic specific drainage of FITC-dextran in inflamed cornea. (A) Representative micrograph of corneal live imaging showing red blood vessels (arrowhead) and FITC-dextran (green) labeled lymphatic vessel (arrow). (B) Immunostaining micrograph showing the same FITC-dextran labeled vessel in (A) expressed LYVE-1 (red), the lymphatic marker. Original magnification: 40X (A), 100X (B).
